## **GLOBALG.A.P. PRODUCT LIST**

### **1 INTEGRATED FARM ASSURANCE (IFA) STANDARD**

This product list also covers all products for the localg.a.p. programs, the Produce Safety Standard (PSS) and the Harmonized Produce Safety Standard (HPSS), the Integrated Farm Assurance Benchmarked Schemes and Checklists (Resembling and Equivalent), GLOBALG.A.P. Standards (e.g. Livestock Transport Standard, Crops for Processing, Chain of Custody, Compound Feed Manufacturing, etc.) and Add-ons.

A list with translations of all the products included in the following lists is available at the following link:

[https://www.globalgap.org/content/galleries/documents/GLOBALGAP\\_product\\_upload\\_sheet\\_en.xlsx](https://www.globalgap.org/content/galleries/documents/GLOBALGAP_product_upload_sheet_en.xlsx)

NOTE: This list is not exhaustive and new products can be added on request to and after approval by GLOBALG.A.P. Send written requests to **customer\_support@globalgap.org** with the following information: **product name, scientific name and any additional information** that can assist to make the a decision whether to add or decline the product.

#### **1.1 SCOPE: CROPS**

Criteria for inclusion into this list of a product are by necessity arbitrary, based on a GLOBALG.A.P. decision. GLOBALG.A.P. Certification cannot be achieved for “wild crops” such as mushrooms, walnut, lychee / litchi, etc. that are not cultivated.

##### **1.1.1 Sub-scope: Fruit and Vegetables (FV) – Specialty Crops**

Fruit and Vegetables, for the purpose of GLOBALG.A.P. Certification, are defined by GLOBALG.A.P. in Table 1 below.

The range of products can be defined as: products originating from plants which are commonly designated as producing either “fruit”, “vegetables”, “edible roots”, “bulbs”, “tubers”, “nuts”, “spices” or “herbs”, for fresh, cooked or processed consumption by humans. It **does not** include fruit or vegetables used solely for their aromatic or medicinal purposes.

More details on the specific certifiable product can be added in brackets to the paper certificate, for example Mushrooms (Oyster Mushroom), Bananas (Red Bananas), etc.

**NOTE 1: Herbs:** Products classified as Herbs in general are listed in the GLOBALG.A.P. Product list as individual products, with separate identification numbers. However, where more than one herb product is grown, residue testing does not have to be performed on each individual product (Herb), but according to the risk of the group of Herbs.

Also, the use of Plant Protection Products on Herbs is applicable to Herbs as a group and not for each individual product (Herb).

**NOTE 2: Leafy Greens in general:** Also called potherbs, greens, vegetable greens, or salad greens, are where the plant leaves are for human consumption, and can sometimes be accompanied by tender petioles and shoots. Examples include, but are not limited to Lettuce, Cabbages, Herbs, Celery, Spinach, Endives, Cress - types, etc.

**NOTE 3: Hemp:** *C. sativa* varieties used for purely medicinal or recreational purposes are excluded from the GLOBALG.A.P. scope. Industrial Hemp and Hemp (Herb) with a low Tetrahydrocannabinol (THC) can be certified under the GLOBALG.A.P. scope. According to Brenneisen et al 1987 Cannabis ( [www.internationalhempassociation.org/jiha/jiha5210.html](http://www.internationalhempassociation.org/jiha/jiha5210.html) ) can be divided into three distinct categories (according to the percentage THC in the upper third of the leaves): drug types (>1% THC) whose products are used recreationally and medicinally; inter-mediate types (>0.3-1.0% THC) with only a small drug potential, depending on the CBD/THC ratio; and fibre types (industrial hemp, fibre hemp) ( $\leq 0.3\%$  THC) used for the production of fibre and seeds with no drug potential. Therefore, in terms of GLOBALG.A.P. only hemp varieties with  $\leq 0.3\%$  THC are to be considered.

**NOTE 4: Fruit & Vegetable Plants in Pots:** If the intention is to grow mature plants in pots and sell it to the end consumer (even if there is no mature fruit), it must be certified under the sub-scope Fruit & Vegetables (FV). Residue testing however is not applicable in this case. In the case where seedlings are generated in pots, and sold as seedlings to producer, then it must be certified under the sub-scope Plant Propagation Material (PPM).

### 1.1.2 Sub-scope: Combinable Crops (CC) – Field Crops

Combinable Crops, for the purpose of GLOBALG.A.P. Certification, are defined by GLOBALG.A.P. in Table 1 below.

The range of products can be defined as: products originating from production systems, which are commonly designated as producing either “grain”, “pulses”, “fodder” or “extracts” (oil, sugar, starch, etc.), for cooked or processed consumption by humans or animals, or for use in industry. It **does not** include Combinable Crops used solely for their aromatic or medicinal purposes.

Other descriptions for this type of product are “Broad-acre Crops”, “Bulk Crops” or “Arable Crops”.

### 1.1.3 Sub-scope: Flowers and Ornamentals (FO)

Flowers and Ornamentals, for the purpose of GLOBALG.A.P. Certification, are defined by GLOBALG.A.P. in Table 1 below. Flower and Ornamental plants, not used for edible purposes, are certified under the sub-scope Flowers and Ornamentals.

For the Certificate template the certified species shall always be included e.g. *Cut Flowers - Carnations*

For Flowers and Ornamentals sub-scope, the product list only describes **generic categories**. Therefore, in terms of the Flowers and Ornamental sub-scope, the definitions of parallel production and parallel ownership are as follows:

#### Parallel Production (PP):

PP is the situation where individual producers; producer members or producer groups produce the same **species** partly as certified and partly as non-certified. It is also PP where not all the members of a producer group producing a **species** that is registered for certification are included in the scope of the certificate.

Example: A producer grows roses. Only a part of the roses production will be certified.

A situation in which a farmer produces one **species** as certified and another **species** as non-certified is not Parallel Production (e.g.: roses certified and carnations non-certified).

### Parallel Ownership (PO):

PO is the situation where individual producers; producer members or producer groups buy non-certified products of the same **species** they grow under certified production.

Example: A producer grows certified roses and buys non-certified roses from other producer(s).

### Classification Guidelines for Generic Listings:

- a. Bamboo and Ornamental Grasses: Woody plants with hollow stems and/or plants from the grass family sold for ornamental purposes.
- b. Bedding Plants: Plants set into a garden bed or container when it is about to bloom, usually an annual used for display and discarded at the end of the season
- c. Cactuses / Succulents: Plants with thick succulent stems and thorny spines instead of leaves, well adapted in dry areas.
- d. Cut Flowers: Any flowers or flower buds (often with some stem and leaf) that have been grown and cut from the plant bearing it. It is usually removed from the plant for indoor decorative use.
- e. Flowering Bulbs: Flowering plants, in pots or outside, grown from a bulb.
- f. Hardy Plants: Plants that can tolerate cold winters and frost and can over-winter outdoors.
  - f.i Hardy Plants - Deciduous Shrubs: Hardy shrubs losing their leaves during colder months
  - f.ii Hardy Plants - Conifers: Cone-like evergreen hardy plants that bear needle shaped or scale-like leaves.
  - f.iii Hardy Plants - Hedge Plants: Special type of hardy shrubs planted to form a border
  - f.iv Hardy Plants - Climbing Plants: A group of hardy plants with weak stems that climb up trees and other objects by using their stems to twine around a support structure and/or making use of sucking organs
  - f.v: Hardy Plants - Roses: A prickly hardy bush or shrub that typically bears various colours of fragrant flowers
- g. House Plants: Plants grown indoors (e.g. homes, offices, etc.) for decorative purposes
  - g.i: House Plants - Flowering: House Plants grown specifically for their flowers
  - g.ii: House Plants - Green Foliage: House Plants grown specifically for their green foliage
  - g.iii: House Plants in Pots (mixed varieties): House Plants planted in pots that contain a mixture between flowering and foliage plants
  - g.iv: House Plants - Orchids: Plants with complex flowers having a large specialized petal (labellum) and also lacking a permanent woody structure
- h. Ornamental Gourds: The hard-shelled fruit of any of various plants, whose dried shell is used for ornamental purposes. In this case only the production and harvesting processes are covered, and NOT the drying/curing /preserving process

- i. Garden Plants in Pots (mixed varieties) – Ornamental plants that will be kept outside in pots and that contain a mixture of different plants
- j. Perennials - Plants living for more than 2 years
  - h.i: Perennials - Flowering: Perennial plants grown specifically for their flowers
  - h.ii: Perennials - Green Foliage: Perennial plants grown specifically for their green foliage
  - h.iii: Perennials - Ground Cover Plants: Low dense-growing plants covering the surface of the ground
  - h.iv: Perennials - Aquatic Ornamental Plants: Water plants (with or without flowers) that are growing partially or fully in fresh water.
- k. Trees: A plant with an elongated stem or trunk, supporting branches and leaves, that tends to be long-lived.
- l. Turf: A grass-type that keeps the surface layer of the earth together by means of its roots

Note: In the case of the green foliage used with cut flowers in flower arrangements, these plants can be certified under the most applicable listing under the sub-scope Flowers and Ornamentals. For example, if the green foliage comes from a perennial plant, Perennial Green Foliage (ID 100015) can be used. If the green foliage originates from Trees, then Trees (ID 398) can be used. In all these cases, the Certification Body can include the specific plant, in brackets, on the paper certificate.

#### 1.1.4 Sub-scope: Hop (HO)

Hop, for the purpose of GLOBALG.A.P. Certification, is defined by GLOBALG.A.P. in Table 1 below.

Hops Cones for brewing shall be certified after compliance with the All Farm Base + Crops Base + Hop modules. However, when Hops Shoots are included in the scope of certification, together with Hops Cones for brewing, the producer shall comply with the All Farm Base + Crops Base + Hop + Fruit and Vegetables modules. If the producer is ONLY applying for certification of Hops Shoots (no brewing), the producer shall comply with the All Farm Base + Crops Base + Fruit and Vegetables modules.

#### 1.1.5 Sub-scope: Tea (TE)

Tea, for the purpose of GLOBALG.A.P. Certification, is defined by GLOBALG.A.P. in Table 1 below. Only *Camellia sinensis* is covered under this sub-scope.

However, if the tea leaves of this species are either to be consumed fresh (infusion) or handled directly by the consumer (e.g. sold in pots) then the sub-scope FV would be applicable.

### 1.1.6 Sub-scope: Plant Propagation Material (PPM)

Plant Propagation Material for the purpose of GLOBALG.A.P. Certification is defined by GLOBALG.A.P. in Table 1 below.

All types of plant propagation material are covered under this sub-scope e.g. seedlings, rootstocks, cuttings, seed, etc. Propagation methods, like *in vitro* propagation, are also covered. It is applicable to all of the products listed under the Crops scope, however the products for the sub-scope Plant Propagation Material each has their own ID number. (Different from the IDs allocated to the products listed under FV, FO, CC, HO and TE). Products that are certified under the sub-scope PPM will have PPM indicated in brackets next to the name for example Lettuce (PPM). The CBs can then indicate, in brackets, the specific type of PPM for example Lettuce (PPM) (Seedlings) in the paper certificate, if required.

**Disclaimer for seed certification:** The certification of seed is only applicable for producers contracted by seed companies. These producers are not allowed to sell the seeds by themselves directly to the market as propagation material, as the GLOBALG.A.P. Certification is to demonstrate the use of good agricultural practices during the production process, but it does not include controls on quality and purity. Seed potatoes are also covered under this statement. These seeds cannot be used for human consumption or feed.

PPM sold as PPM is certified as PPM. If PPM bears edible fruits at the time of sale it has to be certified under the sub-scope FV.

**Table 1: GLOBALG.A.P. List of Certifiable Products – CROPS [Sub-scopes: Fruit and Vegetables (FV), Combinable Crops (CC), Flowers and Ornamentals (FO), Hop (HO), Tea (TE), Plant Propagation Material (PPM)]**

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Acacia Pennata Leaves	<i>Acacia pennata</i>	328					760
Acerola	<i>Malpighia emarginata</i>	198					661
Achacha	<i>Garcinia humilis</i>	99526					99527
Adzuki Beans	<i>Vigna angularis</i>		474				821
Agretti	<i>Salsola soda</i>	448					807
Alfalfa	<i>Medicago sativa</i>		312				746
Almonds	<i>Prunus dulcis</i>	1					493
Aloe Vera	<i>Aloe vera</i>	173					637
Amaranth Seeds	<i>Amaranthus</i> spp.		256				706
Amaranth	<i>Amaranthus</i> spp.	100035					
Angelica (Herb)	<i>Angelica archangelica</i>	99515					99516
Aniseeds	<i>Pimpinella anisum</i>	860					922

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Anise Hyssop (Herb)	<i>Agastache foeniculum</i>	861					923
Appleberries	<i>Billardiera scandens</i>	243					696
Apples	<i>Malus domestica</i>	2					494
Apricots	<i>Prunus armeniaca</i>	3					495
Artichokes	<i>Cynara cardunculus</i>	4					496
Arugula / Rocket (Herb)	<i>Eruca sativa</i>	125					601
Asian Pears	<i>Pyrus pyrifolia</i>	232					687
Asparagus	<i>Asparagus officinalis</i>	5					497
Atemoya	<i>Annona xatemoya</i> , is a cross between two tropical fruits – the sweetsop ( <i>Annona squamosa</i> ) and the cherimoya ( <i>Annona cherimola</i> )	302					738
Aubergines	<i>Solanum melongena</i>	6					498
Avocados	<i>Persea americana</i>	7					499
Aztec Sweet Herbs (Herb)	<i>Lippia dulcis</i> / <i>Phyla dulcis</i>	862					924
Baby Bananas	<i>Musa</i> spp.	126					602
Baby Beet Greens	<i>Beta vulgaris</i> var. <i>esculenta</i>	100098					
Baby Corn	<i>Zea mays</i> L.	8					500
Baby Leaf Brassicas <sup>(1)</sup>	<i>Brassica</i> spp.	100099					
Baby Leaf Chard <sup>(2)</sup>	<i>Beta vulgaris</i> var. <i>cicla</i>	100100					
Baby Leaf Chicory <sup>(3)</sup>	<i>Cichorium intybus</i>	100101					
Baby Leaf Endives <sup>(4)</sup>	<i>Cichorium endivia</i>	100102					
Baby Leaf Lamb's Lettuce	<i>Valerianella locusta</i>	100103					
Baby Leaf Lettuce <sup>(5)</sup>	<i>Lactuca sativa</i>	100104					
Baby Leaf Rocket	<i>Eruca sativa</i>	100105					
Baby Leaf Salad Crops <sup>(6)</sup>	Various spp.	127					
Baby Leaf Spinach <sup>(7)</sup>	<i>Spinacia oleracea</i>	100106					

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Baby Leaf Wild Rocket <sup>(8)</sup>	<i>Diplotaxis tenuifolia</i>	100107					
Balm (Herb)	<i>Melissa officinalis</i>	863					925
Balsam Apples	<i>Momordica balsamina</i>	263					710
Bamboo and Ornamental Grasses	Various spp.			425			790
Bamboo Shoots	<i>Dendrocalamus asper</i>	219					674
Bananas	<i>Musa acuminata</i>	9					501
Barley	<i>Hordeum vulgare</i>		123				600
Basil (Herb)	<i>Ocimum basilicum</i>	864					926
Beans	<i>Phaseolus</i> spp.	10					502
Bedding Plants	Various spp.			288			729
Beetroots	<i>Beta vulgaris</i> subsp. <i>vulgaris</i> Conditiva Group	11					503
Bellflower Roots / Doraji	<i>Platycodon grandiflorus</i>	467					815
Bilberries	<i>Vaccinium myrtillus</i>	15					506
Birdsfoot Trefoil	<i>Lotus corniculatus</i>		99509				99510
Bitter Melons	<i>Momordica charantia</i>	262					709
Bitter Oranges	<i>Citrus aurantium</i>	469					817
Black Cumin	<i>Bunium bulbocastanum</i>	865					927
Black Nightshade	<i>Solanum nigrum</i>	985					984
Black Salsify	<i>Scorzonera hispanica</i>	13					504
Blackberries	<i>Rubus fruticosus</i>	14					505
Blackcurrants	<i>Ribes nigrum</i>	179					643
Bladder Champion (Herb)	<i>Silene vulgaris</i>	100086					100087
Blue-Berried Honeysuckle	<i>Lonicera caerulea</i>	334					764
Blueberries	<i>Vaccinium corymbosum</i>	197					660
Borage (Herb)	<i>Borago officinalis</i>	866					928
Boysenberries	<i>Rubus ursinus</i> x <i>idaeus</i>	311					745
Brassica spp.	Various <i>Brassica</i> spp.	268					715

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Brazil Nuts	<i>Bertholletia excelsa</i>	250					700
Breadfruit	<i>Artocarpus altilis</i>	845					851
Broad Beans / Fava Beans	<i>Vicia faba</i>	399					775
Broccoli	<i>Brassica oleracea</i> var. <i>italica</i>	16					507
Broccoli Romanesco	<i>Brassica oleracea</i> Botrytis cultivar group	216					671
Broccolini	<i>Brassica oleracea</i> var. <i>italica</i> x <i>alboglabra</i>	271					718
Brussel Sprouts	<i>Brassica oleracea</i> var. <i>gemmifera</i>	17					508
Buckwheat	<i>Fagopyrum esculentum</i>		257				707
Bulbs (End Product Bulbs)	Various spp.						791
Butternuts	<i>Cucurbita moschata</i>	128					604
Cabbage Leaf Mustard / Mustard Greens / Chinese Mustard	<i>Brassica juncea</i> var. <i>rugosa</i>	436					798
Cabbages	<i>Brassica oleracea</i> var. <i>capitata</i> ; <i>Brassica oleracea</i> var. <i>medullosa</i> ; <i>Brassica oleracea</i> var. <i>sabauda</i>	18					509
Cacao Fruit	<i>Theobroma cacao</i>	416					787
Cactuses / Succulents	Cactaceae Family			100002			100018
Calabash	<i>Lagenaria siceraria</i>	264					711
Camellia Oleifera Seed	<i>Camellia oleifera</i>		393				771
Canistel / Eggfruits	<i>Pouteria campechiana</i>	849					855
Capers	<i>Capparis spinosa</i> L	318					752
Capsicums (Peppers/Chillies)	Genus <i>Capsicum</i>	400					776
Carambola / Star Fruit	<i>Averrhoa carambola</i>	287					728
Caraway	<i>Carum carvi</i>	867					929
Cardamom	<i>Elettaria cardamomum</i>	174					638

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Carrots	<i>Daucus carota</i>	20					510
Cashews	<i>Anacardium occidentale</i>	246					699
Cassava Root / Manioc / Yuca	<i>Manihot esculenta</i>	180					644
Castor Beans	<i>Ricinus communis</i>		406				781
Catnip (Herb)	<i>Nepeta cataria</i>	868					930
Cauliflower	<i>Brassica oleracea</i> var. <i>botrytis</i>	21					511
Celeriac	<i>Apium graveolens</i> var. <i>rapaceum</i>	22					512
Celery	<i>Apium graveolens</i> var. <i>dulce</i> ; <i>Apium graveolens</i> var. <i>secalinum</i>	23					513
Cereal Grasses <sup>(9)</sup>	Various spp.	100045					
Chameleon Plants (Herb)	<i>Houttuynia cordata</i>	869					931
Chamomile (Herb)	<i>Chamaemelum nobile</i> , <i>Matricaria chamomilla</i>	870					932
Chard	<i>Beta vulgaris</i> var. <i>cicla</i>	24					514
Chayotes	<i>Sechium edule</i>	129					605
Cherries	<i>Prunus avium</i>	25					515
Chervil (Herb)	<i>Anthriscus cerefolium</i>	871					933
Chestnuts	<i>Castanea sativa</i> (most common species)	26					516
Chia	<i>Salvia hispanica</i>		325				758
Chickpeas	<i>Cicer arietinum</i>		199				662
Chickweed (Herb)	<i>Stellaria media</i>	872					934
Chicory	<i>Cichorium intybus</i>	27					517
Chilean Guavas	<i>Ugni molinae</i>	100130					100131
Chinese Artichokes	<i>Stachys affinis</i> , <i>Stachys sieboldii</i>	320					753
Chinese Bayberries	<i>Myrica rubra</i>	326					759

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Chinese Cabbages	<i>Brassica rapa</i> subspecies	130					606
Chinese Flowering Cabbages / False Pak Choi	<i>Brassica rapa</i> var. <i>parachinensis</i>	442					804
Chinese Kale / Chinese Broccoli	<i>Brassica oleracea</i> var. <i>alboglabra</i>	437					799
Chinese Plums / Japanese Apricots	<i>Prunus mume</i>	471					819
Chives (Herb)	<i>Allium schoenoprasum</i>	30					518
Chokeberries	<i>Aronia</i> spp.	313					747
Chufa / Tiger Nuts	<i>Cyperus esculentus</i>	856					857
Cinnamon Bark	<i>Cinnamomum verum</i>	100111					
Citron	<i>Citrus medica</i>	409					784
Citrus Hassaku	<i>Citrus hassaku</i>	439					801
Citrus Leaves	<i>Citrus</i> spp.	100036					
Clementines	<i>Citrus x clementina</i>	31					519
Clover (Forage)	<i>Trifolium</i> spp		100109				
Clover (Herb)	Edible <i>Trifolium</i> spp	873					
Clover	<i>Trifolium</i> spp						935
Coconuts	<i>Cocos nucifera</i>	32					520
Collard Greens	<i>Brassica oleracea</i> – Acephala cultivar Group	837					838
Common Mallow (Herb)	<i>Malva neglecta</i>	874					936
Common Rue (Herb)	<i>Ruta graveolens</i>	875					937
Coriander (Herb)	<i>Coriandrum sativum</i>	33					521
Corn Salad / Lamb's Lettuce	<i>Valerianella locusta</i>	244					697
Cornelian Cherries	<i>Cornus mas</i>	333					763
Cotton	<i>Gossypium hirsutum</i>		202				665
Courgettes (Zucchini, Marrow) <sup>(10)</sup>	<i>Cucurbita pepo</i>	34					522
Cranberries	<i>Vaccinium macrocarpon</i>	35					523

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Cumin	<i>Cuminum cyminum</i>	876					938
Cucumbers	<i>Cucumis sativus</i>	37					525
Curly Endives	<i>Cichorium endivia</i> var. <i>crispum</i>	275					721
Curry Leaves	<i>Murraya koenigii</i>	131					607
Curry Plants (Herb)	<i>Helichrysum italicum</i> ; <i>Helichrysum angustifolia</i>	877					939
Custard Apples / Chirimoya	<i>Annona cherimola</i> ; <i>Annona reticulata</i>	39					526
Cut Flowers	Various spp.			100003			100019
Dandelions	<i>Taraxacum officinale</i>	99521					99522
Dates	<i>Phoenix dactylifera</i>	40					527
Dill (Herb)	<i>Anethum graveolens</i>	878					940
Dittany (Herb)	<i>Origanum dictamnus</i>	100140					100141
Dolichos	<i>Lablab purpureus</i>	182					646
Dragon Fruit / Pitaya	<i>Hylocereus undatus</i>	175					639
Dry Peas	<i>Pisum sativum</i>		157				839
Drumsticks	<i>Moringa oleifera</i>	183					647
Dry Beans	Various spp.		459				810
Durians	<i>Durio zibethimus</i>	239					692
Echalions	<i>A cross between a French Onion and a Shallot</i>	447					806
Edamame	<i>Glycine max</i>	335					765
Edible Burdock	<i>Arctium lappa</i>	322					755
Edible Chrysanthemum	<i>Chrysanthemum coronarium</i>	309					743
Edible Flowers	Various spp.	200					663
Edible Leaves <sup>(11)</sup>	Various spp.	100046					
Elderberries	<i>Sambucus nigra</i>	286					727
Elephant Garlic	<i>Allium ampeloprasum</i>	245					698

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Elsholtzia (Herb)	<i>Elsholtzia</i> spp.	995					998
Endives	<i>Cichorium endivia</i>	41					528
Ensete / False Bananas	<i>Ensete ventricosum</i>	461					812
Epazote (Herb)	<i>Dysphania ambrosioides</i>	100051					100052
Escaroles / Broad-Leaf Endives	<i>Cichorium endivia</i> var. <i>latifolia</i>	285					726
Feijoas	<i>Acca sellowiana</i>	152					626
Fennel	<i>Foeniculum vulgare</i>	42					529
Fenugreek (Herb)	<i>Trigonella foenum-graecum</i>	879					941
Figs	<i>Ficus carica</i>	43					530
Finger Limes	<i>Citrus australasica</i>	981					982

Woodruff (Herb)	<i>Gallium odoratum</i>	915					977
Wood Sorrel (Herb)	<i>Oxalis acetosella</i> , <i>Oxalis vulcanicola</i>	99513					99514
Wormwood (Herb)	<i>Artemisia absinthium</i> , <i>Artemisia abrotanum</i> , <i>Artemisia vulgaris</i>	916					978
Yacon	<i>Smallanthus sonchifolius</i>	237					691
Yam Beans / Jicama	<i>Pachyrhizus erosus</i>	438					800
Yams	<i>Dioscorea</i> spp.	122					599
Yard Long Beans	<i>Vigna unguiculata</i> subsp. <i>Sesquipedalis</i>	273					719
Yarrow	<i>Achillea millefolium</i>	917					979

Product Name	Scientific name	CROPS (Sub-scopes)					
		Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Young Barley Leaves	<i>Hordeum vulgare</i>		390				768
Yuzu Citrus	<i>Citrus junos</i>	100145					100146

- (1) **Baby Leaf Brassicas (ID 100099)**: This product includes various varieties (e.g. Tatsoi, Pak Choi, Mizuna, Kale, Mustard Spinach, Mibuna) harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)). The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (2) **Baby Leaf Chard (ID 100100)**: This product includes all Chard varieties and cultivars harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)). The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (3) **Baby Leaf Chicory (ID 100101)**: This product includes all Chicory types (Radiccio, Sugarloaf and Witloof with its varieties) harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)). The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (4) **Baby Leaf Endives (ID 100102)**: This product includes all Endive varieties and cultivars harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)). The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (5) **Baby Leaf Lettuce (ID 100104)**: This product includes all lettuce varieties harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)) for example Batavia, Iceberg, Crisp-head, Butterhead, etc. The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (6) **Baby Leaf Salad Crops (ID 127)** includes: all the leafy salad crops that would be harvested at an immature stage. A baby-leaf crop is defined as the young leaves and petioles of any plants grown for harvest beyond the seedling stage (after true leaves have formed) but before the eight true-leaf stage – in other words, any salad crops harvested before eight true leaves will be classed as baby leaves. Specific types of Baby Leaf Salad Crops are listed with separate ID codes. However, if the specific grouping is not available, the Baby Leaf Salad Crop can be listed under this ID code.
- (7) **Baby Leaf Spinach (ID 100106)**: This product includes all Spinach types and varieties harvested at an immature stage (as defined by the clarification of Baby Leaf Salad Crops (ID127)). The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (8) **Baby Leaf Wild Rocket (ID 100107)**: This is the Baby Leaf form of Perennial Wall-Rocket. The specific variety can be listed in brackets on the paper certificate if more transparency is required.
- (9) **Cereal Grasses (ID 100045)**: The young green plants (including the leaves) of grain plants (e.g. Barley, Wheat, etc.) that are consumed fresh and / or used for further processing (note no processing included under this scope). These crops, as Plant Propagation Material or Combinable Crops, must still be certified under the applicable grain crop e.g. Barley (ID 600), Wheat (ID 635).
- (10) **Courgette (ID 34)**: All *Cucurbita pepo* varieties that are soft shelled but harvested when fruit is still immature e.g. Vegetable Marrows, Pattypan Squash, Zucchini.
- (11) **Edible Leaves (ID 100046)**: Leaves from plants like vegetables, grains, legumes, etc. (where the stems, roots and /or seeds are more known to be used) that are used for edible purposes. Examples include leaves of products like carrots, peas, sunflowers, maize, cucumbers, beetroot, broccoli, cabbages, etc. It does not include leaves purely used for medicinal purposes or Baby Leaf Salad Crops.
- (12) **Hemp (ID 667) – sub-scope PPM**: Industrial Hemp and Hemp (Herb) as plant propagation material, with a low Tetrahydrocannabinol (THC). Also see note 3 under Clause 1.1.1 of this document for further clarification.
- (13) **Hemp (Herb) (ID 100128) – sub-scope FV**: Only fresh hemp leaves and blossoms with a low Tetrahydrocannabinol (THC) value are covered under this product. Also see note 3 under Clause 1.1.1 of this document for further clarification.
- (14) **Industrial Hemp (ID 204) – sub-scope CC**: Is a variety of the *Cannabis sativa* plant species that is grown specifically for the industrial uses of its derived products. Only hemp seed, and dried stalks with a low Tetrahydrocannabinol (THC) are covered under this product. Also see note 3 under Clause 1.1.1 of this document for further clarification

- <sup>(15)</sup> **Mangetout (ID 67):** This product includes all *Pisum sativum* cultivars where the immature peas with pods are consumed. The name Mangetout also applies to sugar snap peas and snow peas.
- <sup>(16)</sup> **Microgreens (ID 100108):** The edible shoots, cotyledon and first leaves of salad vegetables and herbs, harvested just after the first true leaves, but before the second set of true leaves have developed. Harvest normally takes place between 2-3 weeks from planting.
- <sup>(17)</sup> **Peas (ID 90):** This product includes all *Pisum sativum* cultivars where the pods are NOT consumed – only the fresh seeds
- <sup>(18)</sup> **Pumpkins (ID 100):** All winter squash (*Cucurbita maxima*) varieties that are large fruited, hard shelled and harvested when fruit are fully matured e.g. Crown Prince, Etamples, Golden Delicious, Hokkaido, Hubbard, Golden Hubbard, Warty Hubbard, Kabocha, Queensland Blue, Sweet Dumpling, White Cheesequake.
- <sup>(19)</sup> **Squashes (ID 110):** Winter and Summer squash (*Cucurbita pepo*) varieties that are hard shelled e.g. Acorn Squash, Delicata Squash, Gem Squash, Spaghetti Squash.
- <sup>(20)</sup> **Romaine / Cos Lettuce [ID 100138 (FV) & ID 100139 (PPM)]:** Due to the high level of microbial risks associated with this particular variety, it is now listed as a separate product. Baby Leaf Romaine / Cos Lettuce also falls under this ID for FV.

## 1.2 SCOPE: LIVESTOCK

Criteria for inclusion into this list of a product are by necessity arbitrary, based on a GLOBALG.A.P. Decision. GLOBALG.A.P. Certification cannot be achieved for “wild game/catch” that are not farmed. Livestock certified as GLOBALG.A.P. cover ALL animals of that type present on farm.

### 1.2.1 Sub-scope: Ruminant Base

- (i) Cattle and Sheep (CS)
- (ii) Dairy (DY)
- (iii) Calf/Young Beef (CYB)

### 1.2.2 Sub-scope: Pigs (PG)

### 1.2.3 Sub-scope: Poultry (PY)

### 1.2.4 Sub-scope: Turkey (TY)

**Table 2: GLOBALG.A.P. List of Certifiable Products – LIVESTOCK (Sub-scopes: Cattle and Sheep (CS), Dairy (DY), Calf / Young Beef (CYB), Pigs (PG), Poultry (PY), Turkey (TY)]**

Product Name	Scientific name	LIVESTOCK (Sub-scopes)					
		Cattle and Sheep	Dairy	Calf / Young Beef	Pigs	Poultry	Turkey
Bovines	<i>Bos taurus; Bos indicus</i>	168					
Broiler Chicken	<i>Gallus gallus</i>					166	
Calves	<i>Bos taurus; Bos indicus</i>			330			
Milk	From <i>Bos taurus</i> or <i>Bos indicus</i>		167				
Pigs	<i>Sus domestica</i>				153		
Sheep	<i>Ovis aries</i>	169					
Turkey	<i>Meleagris gallopavo</i>						276
Young Beef	<i>Bos taurus; Bos indicus</i>			331			

### 1.3 SCOPE: AQUACULTURE

GLOBALG.A.P. Certification cannot be achieved for “wild fish/catch” that are not farmed. Aquaculture products certified as GLOBALG.A.P. cover finfish, crustaceans and molluscs, and all stages of the specific species present on the farm.

New species can be added upon request, as long as seedlings are derived from domesticated broodstock under controlled systems (except for the passive collection from the planktonic phase). And the seedlings supply is under commercial status (not only research status).

Certified status for aquaculture products shall be reflected for both the product name and its scientific name.

*NOTE:* For each product in the Aquaculture Base V5, there shall be the possibility in the database to choose the following for each species:

- (i) Broodstock
- (ii) Seedlings (Ova)
- (iii) Seedlings (Juvenile)
- (iv) On-grown farm

#### i. Finfish (FF)

#### ii. Crustaceans (CNS)

#### iii. Molluscs (MC)

**Table 3: GLOBALG.A.P. List of Certifiable Products –AQUACULTURE (Finfish (FF), Crustaceans (CNS), Molluscs (MC)]**

Product Name	Scientific name	AQUACULTURE		
		Finfish	Crustaceans	Molluscs
Adriatic Sturgeon	<i>Acipenser naccarii</i>	99503		
American Cupped Oyster	<i>Crassostrea virginica</i>			379
Arctic Char	<i>Salvelinus alpinus</i>	343		
Asiatic Hard Clam	<i>Meretrix meretrix</i>			100152
Atlantic Halibut	<i>Hippoglossus hippoglossus</i>	366		
Atlantic Salmon	<i>Salmo salar</i>	338		
Barcoo Grunter	<i>Scortum barcoo</i>	465		
Barramundi	<i>Lates calcarifer</i>	364		
Barred Sorubim	<i>Pseudoplatystoma fasciatum</i>	363		

Product Name	Scientific name	AQUACULTURE		
		Finfish	Crustaceans	Molluscs
Bighead Carp	<i>Hypophthalmichthys nobilis</i>	920		
Blackspot Seabream	<i>Pagellus bogaraveo</i>	100110		
Blotched Snakehead	<i>Channa maculata</i>	458		
Blue Mussel	<i>Mytilus edulis</i>			385
Blue Tilapia	<i>Oreochromis aureus</i>	346		
Bluespotted Seabream	<i>Pagrus caeruleostictus</i>	452		
Brown-Marbled Grouper	<i>Epinephelus fuscoguttatus</i>	100079		
Brook Trout	<i>Salvelinus fontinalis</i>	417		
Brown Trout	<i>Salmo trutta fario</i>	418		
Brown Trout	<i>Salmo trutta lacustris</i>	986		
Channel Catfish	<i>Ictalurus punctatus</i>	358		
Chilean Mussel	<i>Mytilus chilensis</i>			386
Chilean-Peruvian Scallop	<i>Argopecten purpuratus</i>			383
Chinook Salmon	<i>Oncorhynchus tshawytscha</i>	340		
Cobia	<i>Rachycentron canadum</i>	357		
Coho Salmon	<i>Oncorhynchus kisutch</i>	339		
Common Carp	<i>Cyprinus carpio</i>	410		
Common Dentex	<i>Dentex dentex</i>	443		
Common Pandora	<i>Pagellus erythrinus</i>	841		
Common Spiny Lobster	<i>Palinurus elephas</i>		100150	
Corkwing Wrasse	<i>Crenilabrus melops</i>	488		
Cuckoo Wrasse	<i>Labrus mixtus</i>	491		
Dragon Tiger Grouper	<i>Epinephelus fuscoguttatus</i> x <i>Epinephelus lanceolatus</i>	100082		
European Abalone	<i>Haliotis tuberculata</i>			422
European Flat Oyster	<i>Ostrea edulis</i>			381
European Seabass	<i>Dicentrarchus labrax</i>	349		
Flathead Grey Mullet	<i>Mugil cephalus</i>	100092		

Product Name	Scientific name	AQUACULTURE		
		Finfish	Crustaceans	Molluscs
Giant River Prawn	<i>Macrobrachium rosenbergii</i>		375	
Giant Snakehead	<i>Channa micropeltes</i>	980		
Giant Tiger Prawn	<i>Penaeus monodon</i>		369	
Gilthead Seahead	<i>Sparus aurata</i>	350		
Goldsinny Wrasse	<i>Ctenolabrus rupestris</i>	490		
Grass Carp	<i>Ctenopharyngodon idella</i>	918		
Greasyback Shrimp	<i>Metapenaeus ensis</i>		378	
Greater Amberjack	<i>Seriola dumerili</i>	455		
Green Mud Crab	<i>Scylla paramamosain</i>		473	
Green Mussel	<i>Perna viridis</i>			424
Green Tiger Prawn	<i>Penaeus semisulcatus</i>		371	
Humpback Grouper	<i>Cromileptes altivelis</i>	100081		
Hybrid Striped Bass	<i>Morone saxatilis x Morone chrysops</i>	100149		
Indian White Prawn	<i>Penaeus indicus</i>		373	
Japanese Hard Clam	<i>Meretrix lusoria</i>			100151
Japanese Meagre	<i>Argyrosomus japonicus</i>	463		
Kuruma Prawn	<i>Penaeus japonicus</i>		370	
Large-Eye Dentex	<i>Dentex macrophthalmus</i>	842		
Large Yellow Croaker	<i>Larimichthys crocea</i>	100000		
Leopard Coral Grouper	<i>Plectropomus leopardus</i>	100080		
Lumpfish	<i>Cyclopterus lumpus</i>	487		
Matrinxã	<i>Brycon cephalus</i>	356		
Meagre	<i>Argyrosomus regius</i>	367		
Mediterranean Mussel	<i>Mytilus galloprovincialis</i>			388
Mozambique Tilapia	<i>Oreochromis mossambica</i> or <i>(Oreochromis mossambicus)</i>	345		
New Zealand Mussel	<i>Perna canaliculus</i>			389
Nile Tilapia	<i>Oreochromis niloticus</i>	344		

Product Name	Scientific name	AQUACULTURE		
		Finfish	Crustaceans	Molluscs
North African Catfish	<i>Clarias gariepinus</i>	359		
Olive Flounder	<i>Paralichthys olivaceus</i>	449		
Pacific Abalone	<i>Haliotis discus hannai</i>			421
Pacific Cupped Oyster	<i>Crassostrea gigas</i>			380
Pacu	<i>Piaractus mesopotamicus</i>	353		
Pangasius Basa	<i>Pangasius bocourti</i>	348		
Pangasius Tra	<i>Pangasianodon hypophthalmus</i>	347		
Pike-perch / Zander	<i>Sander lucioperca</i>	411		
Pink Dentex	<i>Dentex gibbosus</i>	451		
Pirapitinga	<i>Piaractus brachypomus</i>	451		
Piraputanga	<i>Brycon hilarii</i>	355		
Pirarucu	<i>Arapaima gigas</i>	840		
Pompano	<i>Trachinotus ovatus</i>	100083		
Rainbow Trout	<i>Oncorhynchus mykiss</i>	342		
Red Abalone	<i>Haliotis rufescens</i>			384
Red Drum	<i>Sciaenops ocellatus</i>	464		
Red Porgy	<i>Pagrus pagrus</i>	445		
Red Swamp Crawfish	<i>Procambarus clarkii</i>		376	
Redbanded Seabream	<i>Pagrus auriga</i>	843		
Redspotted Grouper	<i>Epinephelus akaara</i>	831		
Russian Sturgeon	<i>Acipenser gueldenstaedtii</i>	99502		
Salmon Trout	<i>Salmo trutta trutta</i>	341		
Sampa (Vundu)	<i>Heterobranchus longifilis</i>	360		
Sand Steenbras	<i>Lithognathus mormyrus</i>	456		
Senegalese Sole	<i>Solea senegalensis</i>	482		
Sharpsnout Seabream	<i>Diplodus puntazzo</i>	444		
Shi Drum	<i>Umbrina cirrosa</i>	454		
Siberian Sturgeon	<i>Acipenser baerii</i>	99501		

Product Name	Scientific name	AQUACULTURE		
		Finfish	Crustaceans	Molluscs
Silver Carp	<i>Hypophthalmichthys molitrix</i>	919		
Small-Mouthed Wrasse	<i>Centrolabrus exoletus</i>	489		
Snubnose Pompano	<i>Trachinotus blochii</i>	419		
South African Abalone	<i>Haliotis midae</i>			100057
Speckled Prawn	<i>Metapenaeus monoceros</i>		374	
Spotted Sorubim	<i>Pseudoplatystoma corruscans</i>	362		
Starry Sturgeon	<i>Acipenser stellatus</i>	99504		
Sterlet Sturgeon	<i>Acipenser ruthenus</i>	99505		
Sterlet Sturgeon (Albino)	<i>Acipenser ruthenus</i>	99506		
Tambacu	<i>Colossoma macropomum</i> x <i>Piaractus mesopotamicus</i>	354		
Tambaqui	<i>Colossoma macropomum</i>	352		
Turbot	<i>Scophthalmus maximus</i>	368		
Wels Catfish	<i>Silurus glanis</i>	361		
White Grouper	<i>Epinephelus aeneus</i>	453		
White Prawn	<i>Penaeus merguensis</i>		377	
Whiteleg Shrimp	<i>Litopenaeus vannamei</i>		372	
Yellowtail Kingfish	<i>Seriola lalandi</i>	365		
Yellow Croaker	<i>Larimichthys polyactis</i>	100001		
Yesso Scallop	<i>Patinopecten yessoensis</i>			382

## 2 COMPOUND FEED MANUFACTURING (CFM) STANDARD

The scope of this standard covers all production steps from purchase, handling and storage to processing and distribution of compound feed for food producing animals. This excludes the production of ingredients like forage or grains (Simple Feed Materials), pre-mixes, additives or medications (Prepared Feed Supplements) etc. but covers the production of Compound Feeds (which can be complete or complementary), that may be produced using any or all of these ingredients as raw material.

**For mammalian and avian livestock production:** the manufacturing of home-mixed compound feeds (i.e. compound feed that do not leave the farm) and grazing / foraging for animals is not covered by this standard. (See Table 4)

**For aquaculture production:** all compound feed, whether sourced internally or externally must follow the criteria of the Aquaculture module. (See Table 4)

**Table 4: GLOBALG.A.P. List of Certifiable Products – Compound Feed Manufacturing (CFM) Standard**

Product Name	COMPOUND FEED	
	Livestock	Aquaculture
Compound Feed for Livestock	434	
Compound Feed for Aquaculture		433

## 3 CHAIN OF CUSTODY (COC) STANDARD

The scopes Crops, Aquaculture and Livestock are covered under the scope of the CoC standard. The certification for CoC Version 5, is not per product but per sub-scope.

**For Chain of Custody v5 the following “products” relate to the different scopes and sub-scopes (See Table 5):**

- i. **Chain of Custody for Crops**
  - a. Chain of Custody for Crops - Fruit and Vegetables
  - b. Chain of Custody for Crops - Combinable Crops
  - c. Chain of Custody for Crops - Flowers and Ornamentals
  - d. Chain of Custody for Crops – Hop
  - e. Chain of Custody for Crops – Tea
  - f. Chain of Custody for Crops - Plant Propagation Material

- ii. **Chain of Custody for Livestock**
  - a. Chain of Custody for Livestock - Cattle and Sheep
  - b. Chain of Custody for Livestock – Dairy (Milk)
  - c. Chain of Custody for Livestock - Calf / Young Beef
  - d. Chain of Custody for Livestock – Pigs
  - e. Chain of Custody for Livestock – Poultry
  - f. Chain of Custody for Livestock – Turkey
- iii. **Chain of Custody for Aquaculture**
- iv. **Chain of Custody for Compound Feed for Livestock**
- v. **Chain of Custody for Compound Feed for Aquaculture**

**Table 5: GLOBALG.A.P. List of Certifiable Products – Chain of Custody – Sub-scopes for the scopes of Crops, Livestock, Aquaculture, and the Compound Feed Manufacturing Standard**

Product Name	CROPS (Sub-scopes)					
	Fruit and Vegetables	Combinable Crops	Flowers and Ornamentals	Hop	Tea	Plant Propagation Material
Chain of Custody for Crops – Fruit and Vegetables	100065					
Chain of Custody for Crops – Combinable Crops		100066				
Chain of Custody for Crops – Flowers and Ornamentals			100067			
Chain of Custody for Crops - Hop				100070		
Chain of Custody for Crops - Tea					100069	
Chain of Custody for Crops – Plant Propagation Material						100068
Product Name	LIVESTOCK (Sub-scopes)					
	Cattle and Sheep	Dairy	Calf / Young Beef	Pigs	Poultry	Turkey
Chain of Custody for Livestock – Cattle and Sheep	100071					
Chain of Custody for Livestock – Dairy (Milk)		100075				
Chain of Custody for Livestock – Calf / Young Beef			100076			
Chain of Custody for Livestock - Pigs				100074		
Chain of Custody for Livestock - Poultry					100072	
Chain of Custody for Livestock - Turkey						100073
Product Name	AQUACULTURE					
	Finfish		Crustaceans		Molluscs	
Chain of Custody for Aquaculture	479		479		479	
Product Name	COMPOUND FEED					
	Livestock			Aquaculture		
Chain of Custody for Compound Feed for Livestock	100077					
Chain of Custody for Compound Feed for Aquaculture				10078		

#### 4 CROPS FOR PROCESSING (CFP) STANDARD

Crops for Processing include those crops from the sub-scopes Fruit and Vegetables (FV), Combinable Crops (CC) and Green Coffee, grown in a controlled production process, that will be further processed (with a kill-step applied by the processor) and NOT consumed fresh for example:

- fruit and vegetable plants that will be canned, cooked, frozen, juiced
- combinable crops used for human food or for feed
- green coffee (ID 172) (only up to harvest, no processing)
