# INTRODUCTION

## 1.1 Scope of the General GLOBALG.A.P. Fee Table

This document forms part of the GLOBALG.A.P. normative documents and may be referenced in other GLOBALG.A.P. documents.

This fee table applies to all countries except USA and Canada. The decisive factor for the location of the company (country) is the location of the legal entity. In case your company is located in the USA or Canada, the "GLOBALG.A.P. Fee Table North America" applies.

## 1.2 What are the Costs for GLOBALG.A.P. Certification for my Farm?

The costs for GLOBALG.A.P. certification consist of the following:

a) **Costs for implementing the standard:** Each farm is unique, so depending on their specific situation, some farms may need to implement new policies, processes, and installations to comply with the standard.

b) **Service fees to the certification body:** Costs for the audits, inspections or assessments (time, travel costs) and services provided by the independent certification body are negotiated directly between the producer and the certification body and depend on individual price policies, duration of the on farm activity, travel costs, time needed for preparation, and follow-up.

c) **GLOBALG.A.P. fees:** These fees are charged by the GLOBALG.A.P. Secretariat via the certification bodies. They are described below in the following chapter (registration fee, certificate license fee, and assessment license fee).

## 1.3 How do I Calculate the GLOBALG.A.P. Fees for my Farm?

The GLOBALG.A.P. fee calculation is based on the type of the standard or the kind of assessment (e.g., Integrated Farm Assurance or GRASP), the scope (e.g., Aquaculture or Crops), the product (e.g., lettuce, Atlantic salmon), and often also the production quantity (e.g., 5 hectares or 1,000 tons).

The prices are listed in the following chapter per standard or type of assessment. More detailed explanations about the fee calculation including examples can be found after the price lists.

Fee Type	Applies to	Annual Fee
Option 1	Each letter of conformance issued	€25.00
Option 2 (base level)	Each letter of conformance issued	€130.00
Option 2 (producer supplement)	Each individual producer group member who is included in the producer group's letter of conformance	€1.00

For further explanations and details, see the fee calculations and definitions.

## 2.8 GLOBALG.A.P. Add-on: GLOBALG.A.P. Risk Assessment on Social Practice (GRASP)

**Standard:**  **GLOBALG.A.P. Risk Assessment on Social Practice (GRASP) based on the Integrated Farm Assurance (IFA) standard – all scopes**

GRASP is obligatory for all producers certified according to the IFA standard for Aquaculture.

Option: 1 – individual producer and 2 – producer group

### GLOBALG.A.P. Risk Assessment on Social Practice (GRASP): Assessment License Fee

Fee Type	Applies to	Annual Fee
Option 1 GRASP assessment license fee	Each individual producer assessed for GRASP	€25.00
Option 2 GRASP assessment license fee (base level)	Each producer group assessed for GRASP	€130.00
Option 2 GRASP assessment license fee (producer supplement)	Each individual producer group member who is included in the producer group assessment	€1.00

For further explanations and details, see the fee calculations and definitions.

## 2.9 GLOBALG.A.P. Add-on: Sustainable Program for Irrigation and Groundwater Use (SPRING)

**Standard:**  **Sustainable Program for Irrigation and Groundwater Use (SPRING) add-on based on the Integrated Farm Assurance (IFA) standard for Crops**

Option: 1 and 3 – individual producer and 2 – producer group

### GLOBALG.A.P. Add-on SPRING Assessment License Fee

Fee Type	Applies to	Annual Fee
Option 1 and 3 SPRING assessment license fee	Each individual producer assessed for SPRING	€30.00
Option 2 SPRING assessment license fee (base level)	Each producer group (QMS) assessed for SPRING	€130.00
Option 2 SPRING assessment license fee (producer supplement)	Each individual producer group member who is included in the producer group's letter of conformance	€10.00

For further explanations and details, see the fee calculations and definitions.

## 2.10 GLOBALG.A.P. Add-on: GLOBALG.A.P. Farm Sustainability Assessment (GGFSA)

Standard:  GLOBALG.A.P. Farm Sustainability Assessment (GGFSA) add-on

Scope: Crops

Sub-Scopes: Fruit and Vegetables, Combinable Crops, Hop, and Plant Propagation Material

Option: 1 – individual producer and 2 – producer group

≥ 200,000	€2,000.00

### 4.1.2 Certificate License Fee

Applies to	Annual Fee
Each certified company	€25.00

For further explanations and details, see the fee calculations and definitions.

## 4.2 GLOBALG.A.P. Add-on: Responsible Operations Standard Add-on for Compound Feed Manufacturing (ROS)

**Standard: Responsible Operations Standard Add-on for Compound Feed Manufacturing (ROS) based on the GLOBALG.A.P. Compound Feed Manufacturing standard**

Option: 1 – individual company only

### 4.2.1 Registration Fee

Applies to	Annual Fee
Each registered and accepted company	€250.00

For further explanations and details, see the fee calculations and definitions.

## 4.3 GLOBALG.A.P. Add-on: Non-GM/“Ohne Gentechnik” Add-on for Aquaculture and Livestock

**Standard:  Non-GM/“Ohne Gentechnik” Add-on for Aquaculture and Livestock**

Option: 1 – individual company only

### 4.3.1 Registration Fee

Applies to	Annual Fee
Each registered and accepted company (compound feed manufacturer/producer/processor) and for each assessment module	€250.00

For further explanations and details, see the fee calculations and definitions.

# CHAIN OF CUSTODY COMPANIES

## 5.1 GLOBALG.A.P. Standards: Chain of Custody (CoC)

Standard:  GLOBALG.A.P. CoC

Option: 1 - individual company only

### 5.1.1 Registration Fee

Applies to	Annual Fee
Each registered and accepted company	€225.00

### 5.1.2 Certificate License Fee

Applies to	Annual Fee
Each certified company	€25.00

For further explanations and details, see the fee calculations and definitions.

## FARM ASSURERS

Fee Type	Applies to	Fee
Farm Assurer license fee	Each company that is licensed as a GLOBALG.A.P. Farm Assurer	€1,550.00 annual fee
Farm Assurer consultant fee	Each additional consultant of an approved Farm Assurer company	€150.00 annual fee
GLOBALG.A.P. Farm Assurer Public workshop	Each consultant to receive training in order to become a GLOBALG.A.P. Farm Assurer consultant, max. 15 participants	€250.00 training day per person
GLOBALG.A.P. Farm Assurer Private workshop	Each company booking a customized Farm Assurer training, incl. exam fee	€2,500.00 per classroom day and on-farm day
localg.a.p. license fee and add-on license fee (scope extension for verification bodies)	Each GLOBALG.A.P. licensed Farm Assurer company (known as a verification body) conducting registrations and evaluations of a localg.a.p. program and/or add-on (as per agreement by program or add-on owner), incl. exam fee	Scope extension fee is included in the Farm Assurer license fee
Exam Fee (for repetition)	Per repeated exam	€100.00 per repeated exam

# 8

## GLOBALG.A.P. CAPACITY BUILDING WORKSHOPS

Face-to-Face Training	Applies to	Amount
GLOBALG.A.P. Capacity Building Public workshop	Anyone who is interested in learning more about GLOBALG.A.P., max. 15 participants, voluntary exam included	€250.00 training day per person
GLOBALG.A.P. Capacity Building Private workshop	Companies interested in a customized private training, incl. exam fee	€2,500.00 per training day
Exam fee (for repetition)	Per repeated exam	€100.00 per repeated exam

# CERTIFICATION BODIES

## 9.1 Certification Body License Fees

Fee Type	Applies to	Annual Fee
Evaluation fee for applicant certification bodies	Initial application per scope or standard and for each additional scope or standard. Sub-scope extension within an already approved scope is free of charge.	€300.00 per application
Certification body license fee (base level)	Approval of the first scope or standard - in the first year of approval	€5,000.00
	- per calendar in consecutive years	€3,000.00
Certification body license fee (scope extension)	Approval of each additional scope, standard or add-on. For localg.a.p. programs: Scope extension fee is only charged once for the first localg.a.p. program and includes all other localg.a.p. program scope extensions in any country.	€500.00
Certification body add-on fee	For certification bodies only approved for a customized add-on	€500.00
Certification body licence fee (country supplement)	Each country where a certificate is issued	€200.00

## 9.2 Certification Body Training Fees

Training	Applies to	Amount
Certification body scheme manager update (SMU) training	Certification body scheme manager(s)	€250.00 training day per person
Certification body in-house trainer training (IHT)	Certification body in-house trainer(s)	€250.00 training day per person
	For Livestock and Aquaculture	€500.00 training per person
Quality management system (QMS) Certification body auditor training	Certification body QMS auditor(s)	€250.00 training day per person
Inspector/Auditor registration fee	Certification body auditors and inspectors (Mandatory)	€50.00 per calendar year and person
Exam retake fee	Per repeated exam	€100.00 per exam

# BENCHMARKING: SCHEME AND CHECKLIST OWNERS

Fees for scheme and checklist owners: Equivalent schemes, resembling schemes, and approved modified checklists (AMCs)

Fee Type	Applies to	Annual Fee
Initial application fee	Applicant schemes/checklists for first sub-scope	€2,500.00 (for application)
Initial application fee (sub-scope extension)	Each additional sub-scope	€525.00 (per application)
Additional review	Each additional review per scheme/checklist	€1,000.00 (per case)
Base administration fee for AMC	First benchmarked crops or aquaculture sub-scope of a recognized AMC (includes voluntary membership and re-benchmarking)	€4,000.00
	First benchmarked livestock sub-scope of a recognized AMC (includes voluntary membership and re-benchmarking)	€10,000.00
Base administration fee: Schemes	First benchmarked crops or aquaculture sub-scope of a recognized resembling or equivalent scheme (includes voluntary membership and re-benchmarking)	€6,000.00
	First benchmarked livestock sub-scope of a recognized resembling or equivalent scheme (includes voluntary membership and re-benchmarking)	€10,000.00
Base administration fee (sub-scope supplement)	Each additional benchmarked sub-scope of a recognized AMC, resembling or equivalent scheme	€525.00 (max. €1,050.00)
Benchmarking integrity fee	Each benchmarked livestock scheme or AMC owner recognized as equivalent (not applicable for crops or aquaculture and for resembling schemes)	€3,000.00
Registration fee for AMC	Each registered and accepted producer of an AMC (Option 1 and 2)	registration fee applies as for GLOBALG.A.P. standards
Producer certificate license fee for AMC	Option 1 and Option 2 (base level): Applies to each certificate issued Option 2 (producer supplement): Each individual producer group member who is included in the producer group certificate	certificate license fee applies as for GLOBALG.A.P. standards

Registration fee: Equivalent schemes Fee model 1 (area/ quantity-related)	Each registered and accepted producer of recognized equivalent schemes	Registration fee applies as for GLOBALG.A.P. standards
Registration fee: Equivalent schemes Fee model 2 (flat fee)	Each registered and accepted crops or aquaculture producer (not applicable for sub-scopes Flowers and Ornamentals and/or PPM) of recognized equivalent schemes	€10.00
	Each registered and accepted producer under sub-scope Flowers and Ornamentals and/or PPM of recognized equivalent schemes	€100.00
	Each registered and accepted livestock producer of recognized equivalent schemes	€3.00
Registration fee: Resembling schemes	Each registered and accepted producer of recognized crops or aquaculture resembling schemes (not applicable for livestock)	registration fee applies as for GLOBALG.A.P. standards

Bookmarking account service fee certification bodies	Each non-member certification body using the bookmarking account	€500

## DEFINITIONS

Approved modified checklist	Certification system with own G.A.P. requirements that are recognized by GLOBALG.A.P. as fully conforming with the GLOBALG.A.P. control points and compliance criteria and which uses the GLOBALG.A.P. general regulations as scheme management rules for certification.
Certification options	Option 1            Individual producer
	Option 2            Producer group
	Option 3            Individual producer under equivalent or resembling scheme
	Option 4            Producer group under equivalent or resembling scheme
Covered/Non-covered crop	Covered crop is primarily intended to mean “produced in a greenhouse”. A crop is considered “covered” when it is grown beneath or within a structure - with or without building foundations - where the cropping environment has some kind of overhead protection (not including individual plant/tree covers, nets, low tunnels, hail protection, mulches, or anything that is not a greenhouse) during the production of that crop. The cover can be made of plastic, glass, or other similar materials, and must be accessible by persons (walk-in possible). Any farm can have part of its crop covered and another part not covered, but this must be declared separately at registration, detailing the sum of the respective areas (covered or not covered) according to the definition above. Any other form of production is considered “non-covered crop”.
Equivalent scheme	Certification system with own G.A.P. requirements and scheme management rules that are recognized by GLOBALG.A.P. as fully conforming with the GLOBALG.A.P. control points and compliance criteria and general regulations.
Resembling scheme	Certification system with own G.A.P. requirements and scheme management rules that, after the benchmarking process, have been found to conform with the GLOBALG.A.P. system to a large extent, but leave some exceptions (more details explained in the GLOBALG.A.P. benchmarking regulations).

# EXPLANATIONS AND CALCULATION EXAMPLES

## 14.1 Producer Fees

The producer fees are composed of a) the registration fee and b) the certificate license fee. They are invoiced to the certification bodies (data trustees) on a monthly basis.

### a) Registration Fee

Registration fees apply to each individual producer and also to each producer group member **per scope** or **sub-scope** of the scheme for each certification cycle. These fees are invoiced to the company registering the producer in the GLOBALG.A.P. database (certification body as data trustee). If a producer works with multiple certification bodies, only one company can act as the producer's data trustee and will therefore be invoiced all registration fees for this producer.

The product quantity (e.g., hectares or tons) of products in the same scope (e.g., Crops) are **aggregated**. The product quantity of different standards (e.g., IFA, HPPS, or an equivalent scheme) or scopes (e.g., Crops or Livestock) are calculated separately. For multisite producers, the quantity is the annual total for all sites.

The registration fee is triggered with the product acceptance in the GLOBALG.A.P. database and charged annually. Product quantity changes may also result in changes of the registration fee.

Exception: In case fees among sub-scopes are different (e.g., Fruit and Vegetables and Flowers and Ornamentals). The products of sub-scopes with the different fees are calculated separately from the products of sub-scopes with the same fee within the scope.

The registration fee **for Crops** is calculated based on the area registered and accepted under **first harvest**. Any area that is used more than once in an annual certification cycle shall be registered as further harvest. Areas registered under further harvest are not subject to additional registration fees.

Example 1 (refers only to registration fee):  
 3ha apples and 1ha pears (IFA, sub-scope Fruit and Vegetables,  
 both non-covered, first harvest)

Registration fee for 4ha:

Area under Non-Covered Production [hectares]	Annual Fee
≥ 2 - < 5	€10.60

(see fee table chapter 2.1)

Example 2 (refers only to registration fee):  
 3ha lettuce (IFA, sub-scope Fruit and Vegetables, covered, first and further harvest)  
 4ha indoor grown flowers (IFA, sub-scope Flowers and Ornamentals, covered, first harvest)

Registration fee lettuce:

Area under Covered Production [hectares]	Annual Fee
≥ 1.5 - < 5	€31.80

(see fee table chapter 2.1.1)

Registration fee indoor grown flowers:

Area under Covered Production [hectares]	Annual Fee
≥ 1.5 - < 5	€300

(see fee table chapter 2.2.1)

Total registration fee (example 2): €31.80 + €300 = €331.80

For **perennial crops**, the area covered by the registration fee is the area in production, i.e., juvenile, non-producing fruit trees are not subject to any fee. Likewise, in case of ornamentals like Christmas trees, the registration fee only applies to the area to be harvested during the year of validity of the certificate. In order to maintain information about the whole area under cultivation, the area in production and to be harvested shall be registered as “First Harvest”, and the non-producing area as “Further Harvest”.

## b) Certificate License Fee/Assessment License Fee

The certificate license fee applies per issued certificate for each certification cycle. Certificates are issued for a producer group, not per producer group member (Option 2 or 4). The certificate license fee refers to a standard or AMC, i.e., separate certificates are issued per each standard. If a producer works with two different certification bodies, they will issue two certificates (one per certification body) even in the case it is the same standard version (e.g., certification body A certifies apples and certification body B certifies strawberries, both IFA standard). The certificate license fee is invoiced to the respective certification bodies. In the GLOBALG.A.P. database, product certification triggers the certificate license fee.

The assessment license fee is issued per letter of conformance and refers to the assessment cycle. The rules are the same as for the certificate license fee.

The certificate/assessment license fee for producer groups (Option 2, base level fee) refers to each certificate or assessment of a producer group. The certificate/assessment license fee for producer groups (Option 2, producer supplement) refers to each individual producer group member who is included in the producer group certificate (incl. AMC). It is an additional fee component according to the number of producer group members.

Example 1 (refers only to certificate/assessment license fee):

An IFA certified producer group with 6 members. 4 members are also GRASP assessed.

IFA certificate license fee: €130 + €6 = €136

Fee Type	Applies to	Annual Fee
Option 2 (base level)	Each certificate issued	€130.00
Option 2 (producer supplement)	Each individual producer group member who is included in the producer group certificate	€1.00

(see fee table chapter 2.1.2)

GRASP assessment license fee: €130 + €4 = €134

Fee Type	Applies to	Annual Fee
Option 2 (base level)	Each GRASP assessment of a producer group	€130.00
Option 2 (producer supplement)	Each individual producer group member who is included in the producer group assessment	€1.00

(see fee table chapter 2.8)

## Aquaculture

The hatchery-related fees are flat fees calculated independently from the estimated number of produced organisms. "Seedling – juveniles" refer to: smolt, fingerling, alevin, nauplii, post-larvae, others.

The GRASP assessment is compulsory for all producers certified according to the IFA standard for Aquaculture. Therefore, the GRASP fees apply.

Example: An aquaculture producer (Option 1) produces 5,000 tons Atlantic salmon. The farm also produces seedlings – ova (about 1,000,000 organisms) and juveniles (about 400,000 organisms). The product's production process (incl. the development stages) is IFA certified.

Registration Fee – Farmed Fish

Annual Production Quantity [metric tons, live weight]	Annual Fee
≥ 5,000 - < 10,000	€1,000

Registration Fee – Hatcheries

Reproduction	Annual Fee
Seedlings (ova)	€100
Seedlings (juveniles)	€100

Certificate license fee:

Option	Applies to	Annual Fee
Option 1	Each certificate issued	€25

Total GLOBALG.A.P. fee calculation: €1,000 + €100 + €100 + €25= €1,225

## GRASP Fees

GRASP assessment fees apply to each GRASP assessment that is carried out on an annual basis. These fees are invoiced to the certification body with the upload of the assessment checklist. Registration fees are not applicable. GRASP can only be assessed in combination with a GLOBALG.A.P. primary production certificate (Option 1 or 2 including approved modified checklist) or equivalent benchmarked scheme (Option 3 or 4).

## localg.a.p. Fees

localg.a.p. registration fees apply to individual producers and producer groups, and are paid on an annual basis. Assessment license fees apply to each issued localg.a.p. assessment report or letter of conformance. These fees are invoiced to the localg.a.p. verification body or certification body who is responsible for collecting it from their producers once each calendar year according to the product cycle.

localg.a.p. program owners and localg.a.p. observers need to be GLOBALG.A.P. members. Verification bodies have to be GLOBALG.A.P. licensed Farm Assurers and pay the Farm Assurer license fees.

These general localg.a.p. fees apply for the localg.a.p. Foundation Level and Intermediate Level (part of the localg.a.p. ready-to-use solution), as non-accredited standards that do not include the GLOBALG.A.P. Integrity Program. Fees for localg.a.p. fully customized solutions may vary, according to the specific requirements of the customized program and as agreed with the program owner.

## Other Programs

Certification bodies may register additional programs for their clients in the GLOBALG.A.P. database. The service fee is charged when the first program is set to the status "certified".

Example: A producer group with 100 producers registers for "other programs".

Fee Type	Annual Fee
Service fee – other programs Option 2 – producer group	€50.00
Service fee – other programs (producer supplement) Option 2 – producer group member	€2.00

GLOBALG.A.P. fee calculation (only "other programs"): €50 + (100\*€2) = €250

## Compound Feed Manufacturers and Chain of Custody Companies

The registration fee is triggered in the database as soon as the first product of a company is accepted for the respective standard (e.g., Chain of Custody). The certificate license fee is triggered when the (first) product is set to "certified" in the GLOBALG.A.P. database.

### 14.2 Farm Assurers

#### Farm Assurer License Fee

The Farm Assurer license fee is paid for the general license by companies to operate as a GLOBALG.A.P. licensed Farm Assurer. It includes one consultant registration fee and voluntary associate membership. In case the company is another type of member, the respective membership fee is applicable. The minimum Farm Assurer license fee is €1,550 per year. It is an annual fee per calendar year due on the first day of January in each year, or for a new Farm Assurer at the start of their license (signed contract).

#### Farm Assurer Consultant Fee

The Farm Assurer consultant fee is applicable per additional consultant and is not included in the membership. Only applicable when no face-to-face GLOBALG.A.P. Farm Assurer workshop is attended in the respective year.

### 14.3 Certification Bodies

#### Certification Body License Fees

The evaluation fee for applicant certification bodies is invoiced per application (first approval) after the acceptance of the application.

Certification body license fees are paid for the general license to carry out certification activities within the GLOBALG.A.P. framework and are paid by the certification body. It is an annual fee per calendar year due on the first day of January in each year, or for a newly approved certification body at the start of their license (signed contract).

Certification body license fee (base level): It includes free participation for one certification body scheme manager in an annual scheme manager update (SMU) training and a €500 discount on GLOBALG.A.P. associate membership fee (voluntary).

Certification body license fee (scope extension): It refers to the application of new scopes of IFA, any other GLOBALG.A.P. standard, any other add-on (including GRASP), or localg.a.p., if agreed with the program owner.

Certification body license fee (country supplement) is based on the number of countries in which the certificates are issued, including add-ons.

#### Certification Body Training Fees

These fees cover the costs for training requirements to qualify certification body inspectors and auditors for GLOBALG.A.P. certification.

Certification body scheme manager update (SMU) training: Participation in one annual SMU training (for one participant) is included in the annual certification body license fee. There is a fee per additional participant of the certification body scheme manager update training.

Certification body in-house trainer training (IHT): A training on CPCC and general regulations per standard version or add-on (e.g., GRASP), one, two, or three days depending on the number of sub-scopes.

### 14.4 Benchmarking: Scheme and Checklist Owners

The benchmarking fees cover the application and approval procedure, ongoing administration and the continuous development guided by the GLOBALG.A.P. Secretariat. Base administration fee for AMCs, equivalent or resembling schemes: Includes free voluntary membership, one participation of one person per year to the benchmarked certification system owner meeting, and re-benchmarking for the respective sub-scope(s). It is an annual fee.

Registration fee equivalent schemes:

The fee option is assigned in the individual agreement with the scheme owner. The registration fee is an annual fee that is invoiced to the scheme owner each year beginning of January. Due date for its calculation is the 31 December of the former year.

- The area/quantity-related registration fee (fee model 1) applies to each individual producer (also to each producer group member) per scope or sub-scope of the scheme for each certification cycle.

- The flat registration fee (fee model 2) applies to each at the due date registered and accepted producer.

No certificate license fee applies for equivalent and resembling schemes.

#### **14.5 Members**

The membership fee is an annual fee per calendar year due on the first day of January in each year or for every new member at the start of their membership. GLOBALG.A.P. retail and food service membership fees are size-related according to overall retail turnover per calendar year.

Supplier membership includes the voting right for one sub-scope.

#### **14.6 Bookmarking Users**

The bookmarking account service is free of additional charges for GLOBALG.A.P. members. The bookmarking account service fee for retail & food service members includes an unlimited number of bookmarked GLOBALG.A.P. Numbers (GGNs). For suppliers and traders the fee is invoiced based on the number of GGNs. The fee is not scope-specific. It is an annual fee per calendar year due on the first day of January each year or for new bookmarking users when they receive access to the bookmarking account.
